Why Choose Lawsuit Financial?

We are a client focused company that strives to raise the bar for the standard of client care in our industry. We don't simply take applications; we spend time discussing and evaluating clients' financial situations, assessing their economic *needs* (not their desires). Providing advances that are proportionate to case value is imperative. As an attorney owned and operated company, we have the expertise and experience necessary to offer litigation funding advances as a strategic tool to increase case values.

We charge no upfront fees. All the costs, including underwriting, courier fees, wire fees, etc, are paid by LSF. Therefore, the funding amount approved is the amount your client receives. No hidden costs of any kind.

Other companies charge several fees –some as high as 60% of the funded amount. Then, they roll them into the contract, so your client ends up paying interest on funded amount **AND** fees!

We charge no compounding interest. Other companies boast “low” interest rates, but compound interest monthly on both funded amount **and fees**. The hidden charges add up quickly and **never stop!** These companies do not explain their interest on interest and interest on “junk” fees policies. We charge flat fees that are carefully and fully explained to the client. Further, the full amount approved is what goes into your client's pocket. We charge a flat rate of funding based on the amount that goes into the client's pocket.

We provide a recovery compromise (an industry exclusive). It's in the contract! We provide, when necessary, a resolution appropriate compromise.

Other companies, with a clear conscience, take your clients **entire** settlement, if that's what is owed. Our contract mandates a compromise in these situations.

We offer a Free Client Resource Center. Clients lower their monthly expenses, find utility and rent assistance programs, and much more, absolutely free! Clients discuss financial needs with a personal counselor who works to find options tailored to the client's specific needs. Again, this is a Lawsuit Financial **exclusive** and is provided absolutely free to your clients.
